

### **Publications in latest 10 years**

- S. Egashira, A. Yorozuya and E. K. P. Rajbanshi (2013): Importance of riverbed evolution in predicting inundation process, Proc. HYDRO 2013 International, Dec. IIT Madras, INDIA, pp. 646-654.
- K. Taki, T. Matsuda, E. Ukai, T. Nishijima and S. Egashira (2013): Method for evaluating flood disaster reduction measures in alluvial plains, Journal of Flood Risk Management, Vol. 6, Issue 3, pp. 210-218.
- A. Yorozuya, Md. Islam, M. Kamoto and S. Egashira (2013): Influence of Jamuna Bridge on river morphology, Advances in River Sediment Research, Fukuoka et al.(eds), Taylor & Francis Group, London, pp. 299-308.
- A. Yorozuya, K. P. Rajbanshi and S. Egashira (2013): Influence of river bed evolution on inundation processes, Advances in River Sediment Research, Fukuoka et al.(eds), Taylor & Francis Group, London, pp. 2043-2048.
- 江頭進治・大本雄二・増田 寛・角谷 健(2013) : 水と微細砂からなる混合体のレオロジー測定装置、水工学論文集、57巻、I-1015-1020.
- Shinji Egashira (2011): Prospects of debris flow studies from constitutive relations to governing equations, Journal of Disaster Research, Vol.6, No.3, 313-320.
- Takahisa Mizuyama and Shinji Egashira (2010): Sediment induced disasters in the world and 1999-debris flow in Venezuela, Journal of Disaster Research, Vol.5, No.3, pp.229-235.
- Rabindra Osti, Shinji Egashira, Katsuhiko Miyake and Tara Nidhi Bhattarai (2010): Field assessment of Tam Pokhari glacial lake outburst flood in Khumbu region, Nepal, Vol.5, No.3, pp.264-273.
- Rabindra Osti and Shinji Egashira (2010): Sediment transportation from bed-load to debris flow and its control by check dams in torrential streams, Chapter 8, Check Dams, Morphological Adjustments, Ed. C. Conesa and M. A. Lenzi, Nova Science Publishers, Inc. ISBN 978-1-60876-146-3, pp.152-184.
- Jian Liu, Shuhhei Minami and Shinji Egashira (2010): Effectiveness of check dams in the reservoir sedimentation control under torrential conditions, Chapter 6, Check Dams, Morphological Adjustments, Ed. C. Conesa and M. A. Lenzi, Nova Science Publishers, Inc. ISBN 978-1-60876-146-3, pp.111-133.
- Rabindra Osti and Shinji Egashira (2009): Hydrodynamic characteristics of the Tam Pokhari Glacial Lake outburst flood in the Mt. Everest region, Nepal, Hydrological Process, Vol.23, pp. 2943-2955.
- Kazuo Ashida, Shinji Egashira and Hajime Nakagawa (2008): River morphodynamics for the 21<sup>st</sup> century, Kyoto University Press, ISBN978-4-87698-765-8. (in Japanese)
- Rabindra Osti and Shinji Egashira (2008): Method to improve the mitigative effectiveness of a series of check dams against debris flows, Hydrological Process, Vol.22, pp. 4986-4996.
- Rabindra Osti, Takahiro Itoh and Shinji Egashira (2007): Control of sediment run-off volume through close type check dams, Debris-Flow Hazards Mitigation: Mechanics, Prediction, and Assessment, (Chen-lung Chen & John J. Major), Millpress, pp.659-667.
- Takahiro Itoh and Shinji Egashira (2007): Influence of debris flow discharge on equilibrium bed slope, Debris-Flow Hazards Mitigation: Mechanics, Prediction, and Assessment, (Chen-lung Chen & John J. Major), Millpress, pp.151-163.

- Shinji Egashira, Takahiro Itoh, Katsuya Horie and Naoshi Nishimoto (2007): A method to predict sediment transport process in drainage basins with dams, River, Coastal and Estuarine Morphodynamics: RCEM 2007, Taylor & Francis Group, London, pp. 1193-1201.
- Takahiro Itoh and Shinji Egashira (2007): Critical condition of sediment entrainment by sediment-water mixture flow, River, Coastal and Estuarine Morphodynamics: RCEM 2007, Taylor & Francis Group, London, pp. 519-526
- Shinji Egashira (2007): Review of research related to sediment disaster mitigation, Journal of Disaster Research, Vol. 2, No. 1, pp. 11-18.
- Itoh, T., S. Egashira and Osti, R (2006): Sediment control function of close type check dam focusing on sediment runoff volume, Proceedings of the International Symposium on Hydraulic Structures, IAHR Symposium, 12-13 October, Ciudad Guayana, Venezuela, CD-ROM: 54-ATO-I3136.pdf.
- Egashira, S (2006): A method to predict sediment transport process in river systems (Key-note Lecture), Proceedings of the International Symposium on Hydraulic Structures, IAHR Symposium, 12-13 October, Ciudad Guayana, Venezuela, CD-ROM: 54-ATO-I3136.pdf.
- Egashira, S., K. Horie, T. Itoh and N. Nishimoto (2006): Influence of dam reservoir on sediment runoff and river bed variation corresponding to a plan size rainfall, Proceedings of the 6th Japan-Taiwan Joint Seminar on Natural Hazard Mitigation, 9-11 October, Kyodai Kaikan, Kyoto, Japan, CD-ROM: SESSION D, paper\_egashira.pdf.
- 江頭進治(2006): 流砂環境の再生に向けて(巻頭言), 混相流, 20巻, 3号, pp.191-192.
- Xuan Loc Luu, Shinji Egashira and Hiroshi Takebayashi (2006): Study on river change and sediment transportation of Tan Chau reach in lower Mekong River, Proceedings of International Conference on Fluvial Hydraulics, River Flow, Sep. 2006, Lisbon, Portugal, pp. 1319-1327, 2006.
- Xuan Loc Luu, Shinji Egashira and Hiroshi Takebayashi (2006): A new treatment of exchange layer thickness to evaluate sediment sorting and armoring, Journal of Applied Mechanics, Vol. 9. pp. 1025-1030.
- 駒田達広・松川知三・江頭進治・堀江克也・西本直史(2006): 高時川における大規模出水時の土砂流出と河床変動に対するダムの影響, 河川技術論文集, 第12巻, pp. 279-284.
- 藤田正治・里深好文・江頭進治(2006): クルド火山噴火後のブランタス川における河床変動 および河床材料の変化特性, 水工学論文集, 第50巻(CD-ROM版), pp. 1003-1008, 2006.
- 伊藤隆郭・江頭進治・コーシャル ラジェ シャーマ(2006): 京都における文化財を含む地域の土砂災害危険領域に関する一考察, 水工学論文集, 第50巻(CD-ROM版), pp. 895-900.
- 竹林洋史・江頭進治・岡部健士・寺岡充夫(2006): 給水・給砂の非定常性と植生の繁茂を考慮した砂州及び流路の形成水理条件, 水工学論文集, 第50巻(CD-ROM版), pp. 973-978.
- 江頭進治(2005): 河川における流砂問題と流砂力学の課題, ながれ, 24, 第6号, pp.581-592.

- Takahiro Itoh and Shinji Egashira (2005): Effect of debris flow discharge on equilibrium bed slope, River, Coastal and Estuarine Morphodynamics: RCEM 2005-Parker & Garcia (eds), Taylor & Francis Group, London, pp. 111-118.
- Shinji Egashira and Takahiro Itoh (2005): Paradoxical discussions on sediment transport formulas, River, Coastal and Estuarine Morphodynamics: RCEM 2005-Parker & Garcia (eds), Taylor & Francis Group, London, pp. 33-38.
- Rabindra Osti, Shinji Egashira and Takahiro Itoh (2005): Sediment control function of close type check dam, Proceedings of the XXXI IAHR Congress, 11-16 September, Seoul, Korea, pp. 3112-3121.
- 江頭進治・伊藤隆郭・コーシャル・ラジェ・シャーマ(2005): 京都における文化財を含む地域の土砂災害危険領域の解析, 日本水文科学会誌, 第35巻, 第3号, pp. 119-127.
- 木戸研太郎・松川知三・吉栖雅人・西本直史・江頭進治(2005): 高時川流砂系における丹生ダムの影響, 河川技術論文集, 第11巻, pp. 279-284.
- 竹林洋史・江頭進治・永田 徹・桑島 信・加藤陽平・伊藤大祐(2005): 植生を有する河道における流砂の空間分布特性, 水工学論文集, 第49巻(2), pp. 925-930.
- 伊藤隆郭・江頭進治(2005): 土石流の流れに及ぼす砂粒子径の影響, 水工学論文集, 第49巻(2), pp. 895-900.
- Shinji Egashira, Takahiro Itoh and Kaushal Raj Sharma (2005): Distribution of cultural heritages and residential region in sediment hazard zone, Proc. of the International Conference on Monitoring, Prediction and Mitigation of Water-Related Disasters, January 12-15, Kyoto, Japan, pp. 667-672.
- 江頭進治・伊藤隆郭(2004): 土石流の数値シミュレーション, 日本流体力学学会 数値流体力学部門 Web会誌 特集「防災のCFD」, 第12巻 第2号, pp.33-43.
- 江頭進治(2004): 混相流ハンドブック, 14. 土木工学, pp. 368-381, 日本混相流学会編, 朝倉書店 (分担執筆).
- T. Itoh, Rabindra OSTI and S. Egashira (2004): Numerical and experimental studies on control functions of close type check dam against debris flow, Proc. of the Ninth International Symposium on River Sedimentation, October 18-21, Yichang, China, pp. 2130-2137.
- M. Papa, S. Egashira and T. Itoh (2004): Critical condition of bed sediment entrainment due to debris flow, Journal of Natural Hazards and Earth System Sciences, Vol. 4, pp. 469-474.
- 伊藤隆郭・江頭進治(2004): 土石流の流出土砂量に及ぼす形状係数の重要性, 水工学論文集, 第48巻(2), pp. 895-900.
- Rabindra Osti, Shinji Egashira and Takahiro Itoh (2004): Prediction of 1999-San Julian debris flows based on dependent and independent occurrences, 水工学論文集, 第48巻(2), pp. 913-918.
- Luu Xuan Loc, Shinji Egashira and Hiroshi Takebayashi (2004): Investigation of Tan Chau Reach in

Lower Mekong using field data and numerical simulation, Annual Journal of Hydraulic Engineering JSCE, Vol.48, pp. 1057-1062.

Hiroshi Takebayashi, Shinji Egashira and Takeshi Okabe (2004): Numerical analysis of braided streams formed on beds with non-uniform sediment, Journal of Hydroscience and Hydraulic Engineering, Vol.22, No.2, pp.37-46.
